WELCOME TO THE INTERNATIONAL CONFERENCE ON 3D VISION

The Organizing Committee is proud to announce the 3DV2019 Conference on 3D Vision that will be held at the Quebec City Convention Centre, on September 16-19, 2019.

The Organizing Committee is preparing an exciting scientific program that covers a broad variety of topics in the area of 3D research on computer vision and graphics, novel sensors, signal processing, geometric modeling, representation and transmission, visualization and interaction, machine learning applied to 3D and applications in different fields.

We look forward to welcoming you in Quebec City in September 2019.

The Organizing Committee

3DV 2019

International Conference on 3D Vision
Québec City, Canada
September 16 - 19, 2019

PREVIOUS LOCATION

The previous conference took place in Verona, Italy on September 5-8, 2018 where more than 200 participants attended the event.

VENUE

Québec City, always enchanting and filled with history, offers you a typical European ambiance brimming with romance and joie-de-vivre.

You are sure to fall under its spell. A fortified city bustling with activity and culture, Québec City will charm you with its boutiques, landscapes, people and countless culinary delights. Surrounded by nature's majestic beauty, this city boasts a safe and exceptional quality of life. Founded in 1608, by Samuel de Champlain, Québec City is the cradle of French civilization in America and remains the only fortified city north of Mexico. Over the years, this city has preserved and developed its rich heritage. Old Québec has in fact been added to UNESCO's prestigious list of World Heritage Sites in 1985.

For more information about activities and excursion around Québec City, please visit the Tourism Office Official Website.

BENEFITS FOR ATTENDEES

- Top-rated contributed sessions;
- Keynote and invited sessions of topical interest;
- Exhibitors showcasing their latest products and services.

BENEFITS FOR EXHIBITORS

Stand out from the competition and benefit from this unique opportunity to meet face to face with more than 200 academic researchers, students, and scientists from around the world who conduct research on 3D vision, graphics, machine learning and virtual/augmented/mixed reality ;

- Meet with prospective employees;
- A single place to keep up-to-date with new trends in 3D vision and related topics;
- Top-rated technical program draws attendees from around the world;
- An exhibit committee staffed with experienced exhibiting, sales, and marketing professionals.
- High visibility exhibits co-located with poster sessions and coffee breaks.

PRELIMINARY PROGRAM

TO BE ANNOUNCED
